Successful Conclusion of the Memorandum of Understanding (MOU) between the Egyptian Space Agency, Cairo Egypt and the University Space Engineering Consortium, Tokyo, Japan on Their Cooperation on Space Science and Technology Activities

The University Space Engineering Consortium (UNISEC, An incorporated non-profit organization of Japan led by Chairperson, Professor Yasuyuki Miyazaki) successfully concluded the Memorandum of Understanding (MOU) on their cooperation on space science and technology activities with the Technology, Innovation and Commercialization Office (TICO, represented by Ms. Eman Mohamed Abel-Wahab Emam) of the Egyptian Space Agency (EgSA) on August 11, 2020.

In cooperation with the Egyptian Space Agency, UNISEC will contribute itself to the development of space engineering not only for both countries but also on a world scale, particularly in the field of mutual exchange of researchers and students, cooperative projects and capacity building, by making use of the R&D potentials and the capacities of developing human resources already equipped with both organizations.
