

TOHOKU University

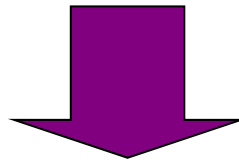

Team F2

Hironori Fukuchi
Ryosuke Fujimura

Objective

- Technique of satellite development
- System Integration technologies
- Method project management

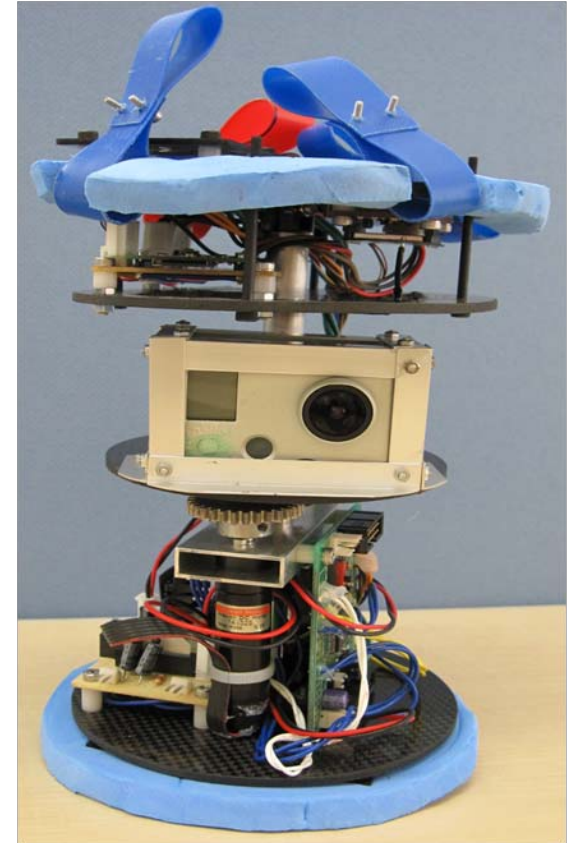

We want to test field experiment.

Participate in ARLISS

Mission

1. Getting dates by sensors (GPS, Gyro, Compass)
2. Control turntable
3. Downlink dates to ground station
4. Uplink the commad to “Pride”

“Pride”

Launch

Thank you ! Nice flight!!

1st flight

2nd flight

Conclusion

1. Getting data from sensor
(GPS, Gyro, Compass)
2. Control turntable
3. Downlink data to ground station
4. Uplink the control to "side"

Success!!

Thank you!!
